

Author Agreement Form

To be completed and signed by all authors on submission to any IIAR Journal

This form records the agreement of every listed author to the submission of the manuscript and to the IIAR Author Guidelines. The corresponding author completes Part A, every author signs Part C, and the signed form is uploaded with the manuscript through the journal's online submission system. A submission cannot proceed to peer review until a complete form has been received. The form should be read together with the IIAR Copyright & Licence Agreement and Ethics Declaration Form, which is completed on acceptance.

PART B — TERMS OF AGREEMENT

By signing this form, each author confirms the following:

- Originality.** The manuscript is the authors' own original work. It has not been published previously in any language or form, is not under consideration by any other journal or publisher, and will not be submitted elsewhere while under consideration by IIAR. Any overlap with the authors' earlier publications, including theses and preprints, is disclosed in the cover letter.
- Authorship.** Every person listed as an author made a substantial contribution to the conception, design, execution or interpretation of the work, has approved the final manuscript, and agrees to be accountable for it. No person who meets these criteria has been omitted. The author order has been agreed by all authors. Any later change to authorship requires the written agreement of every author and the approval of the editor.
- Accuracy and integrity of data.** All data, results, figures and tables are genuine and accurately reported. No data have been fabricated, falsified or selectively omitted. Images have not been manipulated beyond adjustments that are applied uniformly and disclosed. Raw data will be made available to the editor on request.
- Plagiarism and attribution.** All sources are cited. Text, figures or tables reproduced or adapted from other works are identified as such and the necessary permissions have been or will be obtained before publication. The authors accept that the manuscript will be screened for textual similarity and for AI-generated writing, and that it may be returned or rejected if it exceeds the IIAR thresholds.
- Artificial intelligence.** Any use of generative AI or AI-assisted tools in preparing the manuscript is fully and specifically disclosed under the heading *Use of AI tools* in the Declarations. No AI tool is listed as an author. No AI-generated data, images or results are reported as findings. The authors take full responsibility for all content, including any text produced with AI assistance.

6. **Ethics.** Where the work involved human participants, animals, personal data or other matters requiring ethical oversight, the required approvals were obtained before the research began and the approving body and reference number are stated in the manuscript. Informed consent was obtained where required.
7. **Competing interests and funding.** All financial and non-financial interests that could be perceived to influence the work are disclosed in the manuscript, including any relationship between an author and IIAR, its parent organisation or its editorial team. All sources of funding are stated.
8. **Peer review.** The authors agree to double-blind peer review, to respond to reviewer and editor comments in good faith and within the requested time, and to keep the content of reviewer reports confidential. The authors will not contact reviewers directly.
9. **Corrections and retraction.** If a significant error or ethical concern is identified before or after publication, the authors will co-operate promptly with the Editorial Office to correct the record, including publication of a correction, expression of concern or retraction where warranted.
10. **Compliance.** The manuscript has been prepared in accordance with the IIAR Author Guidelines, the IIAR Journal Submission Template and the IIAR Style Guide, and the authors will complete the IIAR Copyright & Licence Agreement and Ethics Declaration Form if the manuscript is accepted.
11. **Communication.** The corresponding author is authorised by all co-authors to act on their behalf in all matters relating to the manuscript, including correspondence, revisions and approval of proofs, and will keep all co-authors informed.

PART C — AUTHOR CONFIRMATIONS AND SIGNATURES

Each author must sign. If there are more than eight authors, attach a continuation sheet in the same format. Electronic signatures are accepted.
